CONTENTS

Volume 28

Number 1, February 1982

K. WATANABE, S. TAKESUE, K. ISHIBASHI, T. IWAMOTO, and J. KONDO: Fine structure of PL-1 phage active against *Lactobacillus casei* 1

Y. YAMADA, H. TAKINAMI-NAKAMURA, Y. TAHARA, H. OYAIZU, and K. KOMAGATA: The ubiquinone systems in the strains of *Pseudomonas* species..... 7

T. HATTORI: Analysis of plate count data of bacteria in natural environments..... 13

T. WATANABE, S. OKUDA, and H. TAKAHASHI: Physiological importance of even-numbered fatty acids and aldehydes in plasmalogen phospholipids of *Selenomonas ruminantium*.... 23

S. J. BOERMAN and D. A. WEBSTER: Control of heme content in *Vitreoscilla* by oxygen.... 35

K. KOBAYASHI and G. W. SKYRING: Ultrastructural and biochemical characterization of Miyazaki strains of *Desulfovibrio vulgaris*..... 45

H. MURAKAMI, K. HAYASHI, and S. USHIJIMA: Useful key characters separating three *Aspergillus* taxa: *A. sojae*, *A. parasiticus*, and *A. toxicarius*..... 55

M. SYLVESTRE and J. FAUTEUX: A new facultative anaerobe capable of growth on chlorobiphenyls..... 61

H. MORISAKI: The electric current from *Escherichia coli* and the effect of resin on it..... 73

T. HAYASHI, S. OKADA, and M. KOZAKI: Effects of some potential electron acceptors on glucose as a sole energy source for the growth of *Lactobacillus vaccinostercus*..... 87

Short Communication

Y. ITOH, K. IZAKI, and H. TAKAHASHI: Mode of action of a bacteriocin from *Erwinia carotovora* IV. Effects on macromolecule synthesis, ATP level and nutrient transport 95

Number 2, April 1982

B. ADKINS, Jr. and WENDALL E. ALLEN: Photoreactivation of ultraviolet-irradiation damage in *Staphylococcus aureus* 101

J. BORS, M. KLOSS, L. ZELLES, and J. FENDRIK: Nitrogen fixation and nitrogen-fixing microorganisms from the rhizosphere of *Diplachne fusca* Linn. (Beauv.)..... 111

M. YAMAZAKI and K. KOMAGATA: Asporogenous yeasts and their supposed ascosporogenous states: an electrophoretic comparison of enzymes..... 119

A. HIRAISHI and S. HORIE: Species composition and growth-temperature characteristics of coliforms in relation to their sources..... 139

J. P. VAN DER WALT, D. YARROW, A. OPPERMAN, and L. HALLAND: *Pichia kodamae* sp. nov., a new homothallic yeast species..... 155

G. ISMAIL and FARIDAH M. SOM: Hemagglutination reaction and epithelial cell adherence activity of *Serratia marcescens*..... 161

T. YOSHIOKA, H. TERAI, and Y. SAIJO: Growth kinetic studies of nitrifying bacteria by the immunofluorescent counting method..... 169

T. YOSHIOKA, H. TERAI, and Y. SAIJO: Analysis of the growth of NH_4^+-oxidizing bacteria and NO_2^- oxidizing bacteria in mixed culture..... 181

J. P. VAN DER WALT, D. YARROW, A. OPPERMAN, and L. HALLAND: *Pichia kodamae* sp. nov., a new homothallic yeast species..... 155

G. ISMAIL and FARIDAH M. SOM: Hemagglutination reaction and epithelial cell adherence activity of *Serratia marcescens*..... 161

T. YOSHIOKA, H. TERAI, and Y. SAIJO: Growth kinetic studies of nitrifying bacteria by the immunofluorescent counting method..... 169

T. YOSHIOKA, H. TERAI, and Y. SAIJO: Analysis of the growth of NH_4^+-oxidizing bacteria and NO_2^- oxidizing bacteria in mixed culture..... 181

Short Communication

H. IWASAKI and H. TERAI: Analysis of N_2 and N_2O produced during growth of denitrifying bacteria in copper-depleted and-supplemented media 189

Number 3, June 1982

K. YAMASATO, M. AKAGAWA, N. OISHI, and H. KURAISHI: Carbon substrate assimilation profiles and other taxonomic features of *Alcaligenes faecalis*, *Alcaligenes ruhlandii* and *Achromobacter xylosoxidans* 195

K. UCHIDA: Multiplicity in soy pediococci carbohydrate fermentation and its application for analysis of their flora 215

H. HIROCHIKA, Y. KOBAYASHI, F. KAWAMURA, and H. SAITO: Construction and characterization of ϕ105 specialized transducing phages carrying sporulation genes *spoOB* and *spoOF* of *Bacillus subtilis* 225

A. E. FLORES and P. FERRIERI: Conversion of group B streptococci to the L-phase: physiological and immunological characterization 231

T. M. PRAKASH and M. CHAUDHURI: Virus removal during coagulation and filtration of primary wastewater 245

L. IYENGAR and A. V. S. PRABHAKARA RAO: Studies on molecular sieve-bound invertase and re-use of solid support 255

A. HIRATA and K. TANAKA: Nuclear behavior during conjugation and meiosis in the fission yeast *Schizosaccharomyces pombe* 263

Short Communication

A. M. DESCHAMPS, J. COMTAT, N. NOUVION, and J. M. LEBEAULT: Degradation of purified birch-wood xylan and production of xylanase by wood-decaying bacteria 275

Number 4, August 1982

H. J. SON, T. I. MHEEN, B. L. SEONG, and M. H. HAN: Studies on microbial penicillin amidase (IV). The production of penicillin amidase from a partially constitutive mutant of *Bacillus megaterium* 281

S. OGATA, S. YOSHINO, Y OKUMA, and S. HAYASHIDA: Chemical composition of autoplast membrane of *Clostridium saccharoperbutylacetomicum* 293

S. GOTO: Multilateral budding in the apiculate yeast genera *Hanseniaspora*, *Nadsonia*, *Saccharomycodes*, *Wickerhamia*, and *Kloeckera* 303

D. NIES and H. G. SCHLEGEL: Catalase from *Comamonas compransoris* 311

Y. YAMADA, K. AOKI, and Y. TAHARA: The structure of the hexahydrogenated isoprenoid side-chain menaquinone with nine isoprene units isolated from *Actinomadura madurae* 321

N. WAKAO, M. MISHINA, Y. SAKURAI, and H. SHIOTA: Bacterial pyrite oxidation I. The effect of pure and mixed cultures of *Thiobacillus ferrooxidans* and *Thiobacillus thiooxidans* on release of iron 331

R. IRIE, T. OKAMOTO, and Y. FUJITA: A germination mutant of *Bacillus subtilis* deficient in response to glucose 345

Y. YAMADA, E. NAKAZAWA, and K. KONDO: The coenzyme Q system in strains of *Trichosporon* species and related organism 355

Number 5, October 1982

V. RANGA RAO: Effect of various nitrogenous compounds on depression of nitrogenase activity in cultured *Rhizobium* spp. 359
H. OYAIZU, K. KOMAGATA, A. AMEMURA, and T. HARADA: A succinoglycan-decomposing bacterium, *Cytoplaga arvensicola* sp nov 369
E MIYAGAWA: Cellular fatty acid and fatty aldehyde composition of rumen bacteria 389
K. SUZUKI, A. KAWAGUCHI, K. SAITO, S. OKUDA, and K. KOMAGATA: Taxonomic significance of the position of double bonds of unsaturated fatty acids in corynebacteria 409
K. YAMANE, Y. TAKEICHI, T. MASUDA, F. KAWAMURA, and H. SAITO: Construction and physical map of a *Bacillus subtilis* specialized transducing phage ρ11 containing *B. subtilis lys*$^+$ gene 417
M. YAMAZAKI and K. KOMAGATA: An electrophoretic comparison of enzymes in the genus *Cryptococcus* and related microorganisms 429
I. YAMAMOTO, T. MITSUI, and M. ISHIMOTO: Nitrate reduction in bacteroides multiacidus: its effect on glucose metabolism, and some properites of the reductase 451

Short Communication

N. WAKAO and H. SHIOTA: Effect of temperature on the bacterial iron oxidation rate in a river contaminated with acid mine water 465

Number 6, December 1982

P. E. HERNANDEZ: Transport of D-glucose in *Clostridium thermocellum* ATCC-27405 469
K. NUNOMURA and T. FUJITA: Calorimetric study on the sugar metabolism of yeast under nongrowing conditions 479
D. P. BRUNNER and R. W. TREICK: Effects of phenethyl alcohol treatment upon the folded chromosome of *Escherichia coli* 491
G. D. FERRONI and S. MACFARLANE: Growth and protein synthesis in two aquatic, psychrotrophic bacteria 499
N. RAZAK and G. ISMAIL: Interaction of human polymorphonuclear leukocytes with *Pseudomonas pseudomallei* 509
Y. YAMADA, C. F. HOU, J. SASAKI, Y. TAHARA, and H. YOSHIOKA: The structure of the octahydrogenated isoprenoid side-chain menaquinone with nine isoprene units isolated from *Streptomyces albus* 519
G. CALDES, B. PRESCOTT, and P. J. BAKER: The use of commercial pectinase in the hydrolysis of sachharides other than pectin 531
S. SEKI, K. HIGO, and M. ISHIMOTO: Studies on nitrate reductase of *Clostridium perfringens*. III. Comparison of nitrate reductase from five strains of *C. perfringens* 541
M. ABE and S. HIGASHI: β-Glucosidase and β-galactosidase from the periplasmic space of *Rhizobium trifolii* cells 551
